

THE EAST MIDLAND GEOGRAPHER

U.I.C.C.
MAY 29 1978
LIBRARY

INDEX TO VOLUME 6 NUMBERS 41-48 1974-1977

References to figures are in italics

A

Agriculture

Agricultural land use, soils and the Nottinghamshire tithe surveys <i>circa</i> 1840	284-301
The birth of a new industry and its spatial pattern: the example of broiler growing in the East Midlands ..	349-360
Weather variations and crop relationships in the East Midlands	375-381

B

Barnes, F.A.

The mild winter of 1974-75 at Nottingham: the anatomy of an exceptional season	153-167
--	---------

Bedford

The spatial evolution of the Italian community in Bedford	337-345
<i>Spatial evolution of Italians in Bedford, 1956-1974</i> ..	339

Bedfordshire

Recent developments in the transport of bricks from works in the Oxford-Clay vale	259-260
---	---------

Bloomfield, G.T.

The locational evolution of an automotive firm: Rolls-Royce of Derby	309-327
--	---------

Bollin, River

Channel changes on the River Bollin, Cheshire, 1872-1973	185-199
<i>Changes in meander neck width, 1872-1973</i>	190
<i>Changes in sinuosity of study reach, 1872-1973</i> ..	190
<i>Channel locations in study reach 1872-1935, 1935-1969, 1969-1973</i>	189
<i>Combined population of Bollington M.B., Macclesfield M.B., Wilmslow U.D., and Macclesfield R.D., 1891-1971</i>	194
<i>Five-year moving means of total annual precipitation at Macclesfield, 1903-1970</i>	193
<i>Magnitude of heaviest two-day storm in each year at Macclesfield 1912-1972</i>	193
<i>Number of precipitation events greater than 25mm in two days at Macclesfield, 1912-1972</i>	193
<i>River Bollin watershed, showing location of study area</i> ..	186

<i>Location of motor vehicle manufacturers in Great Britain, 1906</i>	311
<i>Location of major establishments of Rolls-Royce and Bristol Siddeley, 1963</i>	323
<i>Location of the Rolls-Royce site at Derby, 1906</i>	317
Derbyshire	
Form adjustment in a limestone dry valley at Castleton	130-135
<i>Limestone dry valleys in the Castleton area</i>	131
<i>Longitudinal profil of Cave Dale</i>	132
<i>Relation of bed slope to valley-floor width, Cave Dale</i>	133
Infiltration characteristics of a small Pennine catchment in Derbyshire	328-336

Derelict land

Minerals and the problem of derelict land in the East Midlands	17-28
The reclamation of gravel pits in the East Midlands	256-259

E

East Midlands

Minerals and the problem of derelict land in the East Midlands	17-28
<i>Distribution of derelict land by local authority areas, 1969</i>	21
<i>Major mineral working localities</i>	21
<i>Spoil heap at Tibshelf colliery, Derbyshire, in 1970 before major reclamation and The same site in 1972</i>	24
Spatial changes in industrial activity in the East Midlands since 1945	
I: Changes through movement and changes through acquisition	1-16
<i>Destination of industrial firms moving from East Midlands 1945-1951, 1952-1959, 1960-1965</i>	2
<i>Location of subsidiary companies of East Midland Firms and of Parent Companies of East Midland Firms, 1969</i>	14
<i>Movement of industrial firms from and to Areas 32 and 33, 1945 to 1965</i>	7
<i>Movement of industrial firms from and to Areas 35 and 36, 1945 to 1965</i>	10
<i>Origins of industrial firms moving to East Midlands 1945-1951, 1952-1959, 1960-1965</i>	14
II: The hosiery industry	51-65
<i>Employment in the hosiery industry, 1971</i>	52
<i>Hosiery units operated outside the region by East Midland firms, 1971</i>	63
<i>Manufacturing units of Courtaulds Ltd., in the East Midlands, 1971</i>	63
<i>New units established by East Midland hosiery firms, 1945-1970</i>	59
III: The footwear industry	173-184
<i>Branch "closing" establishments in the East Midlands, 1969</i>	180
<i>Employment in the footwear industry in the East Midlands, 1971</i>	174
<i>Footwear units operated outside the region by East Midland firms, 1971</i>	180
IV: The engineering industry	265-274
The birth of a new industry and its spatial pattern: the example of broiler growing in the East Midlands	349-360
<i>Diffusion of broiler-growing plants, 1955-1961</i>	354
<i>Diffusion of broiler-growing plants, 1964-1970</i>	355
<i>Packing stations, feed mills and individually-operated broiler-growing plants, 1971</i>	352
<i>Production of individually-operated broiler-growing plants, 1971</i>	351

East Midlands—continued

The changing relationship between railways and the iron and steel industry in the East Midlands	29–39
<i>Iron-ore handling depots</i>	30
<i>Railway routes and Jurassic iron-ore traffic, 1960–1973</i>	34
The reclamation of gravel pits in the East Midlands	256–259
<i>Award-winning schemes</i>	257
Weather variations and crop relationships in the East Midlands	375–381
<i>The location of the meteorological stations within the five East Midland crop-counties</i>	376
Engineering industry	
Spatial changes in industrial activity in the East Midlands since 1945: IV The engineering industry	265–274

F

Fluvial geomorphology	
Channel changes on the River Bollin, Cheshire, 1872–1973	185–199
Footwear industry	
Spatial changes in industrial activity in the East Midlands since 1945: III The footwear industry	173–184

G

Glacial geomorphology of North Norfolk: A comment by F.C. Cox and E.F.P. Nickless and reply by A. Straw	92–98
Gravel pits	
The reclamation of gravel pits in the East Midlands	256–259

H

Hall, R.	
Occupation and population structure in part of the Derbyshire Peak District in the mid-nineteenth century	66–78
Hosiery industry	
Spatial changes in industrial activity in the East Midlands since 1945: II The hosiery industry	51–65
Husain, M.S.	
The increase and distribution of New Commonwealth immigrants in Greater Nottingham	105–129
Hydrology	
Infiltration characteristics of a small Pennine catchment in Derbyshire	328–336

I

Immigrants	
The increase and distribution of New Commonwealth immigrants in Greater Nottingham	105–129
The spatial evolution of the Italian community in Bedford	337–345
Industry	
Changing relationship between railways and the iron and steel industry in the East Midlands	29–39
Regional contrasts in the evolution of the Pennine silk industry before 1860	217–229

Industry—continued

Spatial changes in industrial activity in the East Midlands since 1945

I: Changes through movement and changes through acquisition	1-16
II: The hosiery industry	51-65
III: The footwear industry	173-184
IV: The engineering industry	265-274
The birth of a new industry and its spatial pattern: the example of broiler growing in the East Midlands ..	349-360
The locational evolution of an automotive firm: Rolls-Royce of Derby	309-327
Infiltration characteristics of a small Pennine catchment in Derbyshire	328-336

K

King, R.L. and King, P.D.

The spatial evolution of the Italian community in Bedford	337-345
---	---------

Knighton, A.D.

Form adjustment in a limestone dry valley at Castleton, Derbyshire	130-135
--	---------

L

Leicester

Pedestrian flows in the central area of Leicester: a study in spatial behaviour	79-91
<i>Average pedestrian flows</i>	82
<i>Pedestrian locational motives</i>	85
<i>Socio-economic constraints on average pedestrian flows</i> ..	89
<i>Temporal fluctuation of pedestrian flows</i>	83
<i>Temporal fluctuation of pedestrian locational motives</i> ..	87
The development of public parks and gardens in the city of Leicester	275-283
<i>Urban expansion and park development</i>	278

Leicestershire

A ridge-and-furrow map of Leicestershire and Northamptonshire	382-385
<i>A ridge-and-furrow map of Leicestershire and Northamptonshire</i>	383
<i>Leicestershire and Northamptonshire (A) Drift deposits (B) Relief</i>	384

Lewis, G.J.

Pedestrian flows in the central area of Leicester: a study in spatial behaviour	79-91
---	-------

Limestone

Form adjustment in a limestone dry valley at Castleton, Derbyshire	130-135
--	---------

Lincolnshire

The reform of local government areas in north Lincolnshire 1974	241-255
<i>Local government areas before April 1974</i>	242
<i>Proposals of the Royal Commission on Local Government (1969)</i>	248
<i>The new local government areas, April 1974</i>	252

Lincolnshire—continued

The withdrawal of train-replacement buses in east Lincolnshire	261
Local government areas	
The reform of local government areas in north Lincolnshire, 1974	241–255

M

Marriott, A.T.	
The reform of local government areas in north Lincolnshire, 1974	241–255
Mead, W.R.	
A ridge-and-furrow map of Leicestershire and Northamptonshire	382–385
Milner, J.S.	
Weather variations and crop relationships in the East Midlands	375–381
Minerals and the problem of derelict land in the East Midlands	17–28
Mosley, M.P.	
Channel changes on the River Bollin, Cheshire, 1872–1973	185–199

N

Norfolk

The glacial geomorphology of central and north Norfolk:	
A comment by F.C. Cox and E.P. Nickless and reply by A. Straw	92–98
<i>Schematic section across the Chalky Boulder Clay ice front, showing the stratigraphy of the Norwich area</i>	93

Northamptonshire

A ridge-and-furrow map of Leicestershire and Northamptonshire	382–385
Lateral interdependence as an aspect of rural service provision: a Northamptonshire case study	361–374
<i>Location of Brixworth Rural District and survey villages</i>	364
<i>Population and service provision in Brixworth Rural District</i>	367
<i>Retail and trade service provision in Brixworth Rural District</i>	365
<i>Selected service provision for households in Naseby</i>	368
<i>Service bus provision in Brixworth Rural District</i>	371

Nottingham

A note on the geographical evolution of the Greater Nottingham Co-operative Society	145–152
<i>Retail branches and areas served by adjoining Societies, 1972</i>	149
Changes in railway passenger services in the Derby-Nottingham area, 1964–1974	136–144
The increase and distribution of New Commonwealth immigrants in Greater Nottingham	105–129
<i>General location map</i>	111
<i>The distribution of New Commonwealth immigrants in 1961 and 1971</i>	114
<i>The distribution of immigrants born in India and Pakistan in 1961 and 1971</i>	120

Nottingham—continued

<i>The distribution of immigrants born in British Caribbean countries in 1961 and 1971</i>	126
The mild winter of 1974-75 at Nottingham: the anatomy of an exceptional season	153-167
<i>Temperature at Nottingham University, winter 1974-1975</i>	156
<i>Temperature conditions at Nottingham in the phases of the winter 1974-1975</i>	157
<i>Temperature anomalies and circulation patterns (Atlantic)</i>	161
The Nottingham incineration and district heating scheme	40-43
<i>Major elements in the Nottingham and district heating scheme</i>	41
Nottingham University (Department of Geography)	
New Chair of Geography	168

Nottinghamshire

Agricultural land use, soils and the Nottinghamshire tithe surveys circa 1840	284-301
<i>Tithe awards</i>	285
<i>Soils</i>	286
<i>Land use</i>	286
<i>Wheat, barley and oats</i>	292
<i>Fallow, peas and turnips</i>	293
<i>Clover, meadow and pasture</i>	293
